

Facundo Scordo, Ph.D.

fscordo@unr.edu | Phone: (775) 342-9468 |

University of Nevada, Reno | Tahoe Institute for Global Sustainability | Department of Biology
1664 N. Virginia | Reno, NV 89557

CURRENT APPOINTMENTS

Research Assistant Professor, Biology Department, University of Nevada, Reno 2024-Present

Research Focal Areas: Wildfire impacts on freshwater ecosystems; Freshwater ecosystem resilience under global change; Human stressors on lake and river systems

Manager of Castle Lake Environmental Research and Education Program. 2019-2021;
University of Nevada, Reno 2024-Present

PREVIOUS PROFESSIONAL APPOINTMENT

Teaching Faculty, Geography & Tourism Department, Universidad Nacional del Sur (Argentina). 2022-2024

Researcher, National Scientific and Technical Research Council (Argentina). 2021-2024

Research Focal Areas: Spatial and temporal variability in metabolism and nutrient limitation across lake habitats; Freshwater ecosystem responses to climate and human-driven change

Postdoctoral Research Fellow, University of Nevada, Reno 2019-2021

Mentor: Dr. Sudeep Chandra

Research Focal Areas: Wildfire emissions and aquatic ecosystem response; Spatial and temporal variability across lake habitats; Lake responses to varying hydroclimatic conditions.

Postdoctoral Research Fellow, Instituto Argentino de Oceanografía 2018-2019

Mentor: Dr. Gerardo M.E. Perillo.

Research Focal Areas: Climate variability and lake ecosystem dynamics; Human-driven alterations of watershed hydrology and water quality

EDUCATION

Ph.D. Geography, Universidad Nacional del Sur, Argentina 2013-2018

Advisor: Dra. M. Cintia Piccolo.

Dissertation: Integrated Dynamics of Water Resources in the Senguer River Basin

B.S. Environmental Sciences, University of Buenos Aires, Argentina. 2007-2011

Honors Diploma | Highest GPA of the April 2012 graduating class

PEER-REVIEWED PUBLICATIONS (Google Scholar: *h-index: 19* | *i10-index: 31*)

(Students, or technicians mentored or co-mentored by Scordo are underlined)

RESEARCH GRANTS

Total: \$1,146,332

National Science Foundation Fire Science Innovations through Research and Education (FIRE). 2025-2026. PI. “Wildfire Airborne Particles (Emissions, Transport, Fate) and their Influence on Lake Ecosystems”.	\$187,699
Tahoe Regional Planning Agency and Tahoe Science Advisory Council. 2026-2027. Co-PI. An integrated monitoring program to quantify the type of plankton and fate of particles controlling Lake Tahoe’s clarity.	\$530,000
Nevada Department of Wildlife. 2026-2027. Co-PI. Invasive Golden Mussel Survival, Growth and Reproductive viability assessment for Lakes Tahoe, Mead, and Pyramid Lake.	\$200,000
National Scientific and Technical Research Council (Argentina). PIP 2025-2027. PI. “High-frequency temporal monitoring of pelagic and littoral zones of Patagonian lakes using sensors”.	\$5,000
University of Nevada Reno Pack Research Experience Program (PREP). 2026 PI. “Lakes as Sentinels of Global Environmental Change: Wildfires, Hydroclimate, and Human Impacts”	\$2,750
Fund for Scientific and Technological Research (Argentina). PICT-2020-2025. PI. “Littoral-benthic and pelagic metabolism of Patagonian lakes - How important are the lake shores?”	\$5,000
Instituto Argentino de Oceanografía-Universidad Nacional del Sur. STAN 9855–22, 2022. PI. “Analysis of the temporal evolution of the Cronómetro Lake surface”.	\$3,000
Instituto Argentino de Oceanografía-Universidad Nacional del Sur. STAN 9856–22, 2022. PI. “Analysis of the temporal evolution of the Cronómetro Lake vegetation”.	\$2,000
Tahoe Regional Planning Agency, Contract #17C00018. 2021–2022. Co-PI. “Wildfire Smoke Impacts Lake Tahoe’s Water Quality”	\$210,883

FELLOWSHIPS & AWARDS

FY26 Faculty Travel Grant, University of Nevada Reno. 2026.	\$1,500
Travel Award Revisiting the Freshwater Imperative in Fort Collins. 2023.	\$2,000
Travel and professional development awards, University of Nevada Reno. 2021	\$500
Limnology & Oceanography Letters Early Career Publication Honoree. 2020.	\$2,775
Postdoctoral Fellow National Scientific and Technical Research Council (Argentina), 2019	\$12,000
Global Lake Ecological Observatory Network Fellowship Program, 2015-2016.	\$4,500
Doctoral Fellow National Scientific and Technical Research Council (Argentina). 2014-2018	\$60,000
Travel Award to attend Global Lake Ecological Observatory Network meetings. 2014, 2015, 2016, 2017.	

TEACHING EXPERIENCE

Teaching Faculty

Nautic Cartography (7013) – Universidad Nacional del Sur, Argentina	2022-2025
<i>Instructor of Record: Led weekly undergraduate laboratory sessions focused on bathymetry planning and nautical fieldwork.</i>	
Apply Cartography (3562) – Universidad Nacional del Sur, Argentina	2016-2022
<i>Lecturer: Delivered lectures to undergraduate students on geographically varying variables, encompassing both social and environmental aspects.</i>	
Automated Cartography (3557) – Universidad Nacional del Sur, Argentina	2018-2018
<i>Lecturer: Developed and prepared laboratory materials to demonstrate advanced mapping techniques for undergraduate students.</i>	

Teaching Assistant

Aquatic ecology (7013) – University of Buenos Aires , Argentina	2011-2012
<i>Developed instructional materials and facilitated discussions on freshwater ecology, spanning scales from cellular processes to ecosystem dynamics</i>	

Guest Lectures

University of Florida, Gainesville, FL. From Landscapes to Freshwaters: Understanding Environmental Change to Support Water Resource Management . Host: Dr. Matias Kirst	Summer 2026
University of South Florida, Tampa, FL. Understanding Freshwaters in a Changing World: Linking Science to Management. Host: Dr. Philip van Beynen	Spring 2026
University of Nevada, Reno, NV. Instruments Used in Freshwater Monitoring Programs. Host: Dr. Sudeep Chandra. Class “Limnology”	Fall 2025
University of Nevada, Reno, NV. Do water feel the burn?. Host: Dr. Erin Hanan. Class “Fire Ecology and Management”.	Spring 2025
Universidad Nacional del Sur, Argentina. Invasive species and their cascading ecological effects on freshwater ecosystems. Host: Dr. Vanesa Negrin. Class “Aquatic Ecology”.	Spring 2024
Michigan State University, Lansing, MI. Wildfire smoke impacts lake ecosystems. Host: Dr. Jessica R. Miesel. Class “Fire and Environmental Quality”.	Spring 2023
University of Regina, Canada. Wildfire smoke influence on lake processes. Host: Dr. María I. Vélez. Class “Earth’s Systems History”.	Spring 2020
University of Nevada, Reno, NV. Effects of climate variability and human impact on Patagonian lakes and rivers. Host: Dr. Sudeep Chandra. Class “Limnology”.	Fall 2019

MENTORING EXPERIENCE

Graduate Students (5)

Eva Laiti. University of Nevada, Reno. Master student. Co-advised with Sudeep Chandra. Anticipated graduation (2028) 2026

Ecological Impacts of Crayfish Invasions in Mountain Lake Ecosystems

Estuardo, Bocel. University of Nevada, Reno. Master student. Co-advised with Sudeep Chandra. Anticipated graduation (2026) 2024-Present

Modeling Physical and Biochemical Process of Lake Atitlán, Central America's

Deepest Lake

Savoeurn, Soum. Royal University of Phnom Penh, Cambodia. Ph.D. student. Co-advised with Sudeep Chandra. Anticipated graduation (2026) 2022-Present

Metabolic Shifts in Southeast Asia's Largest Freshwater Lake: Implications for Fisheries Production

Aldo San Pedro. University of Nevada, Reno. Master student. Co-advised with Sudeep Chandra. Graduated 2024. 2020-2024

Context-dependent controls of periphyton across the littoral-benthic habitat of deep, clear lakes

Elizabeth Mast. University of Nevada, Reno. Master student. Co-advised with Sudeep Chandra. Graduated 2024. 2020-2024

Zoobenthic macroinvertebrate community responses to ice break up in subalpine lake habitats over 15 years

Undergraduate Students (14)

Noah, Wennerberg. University of Nevada, Reno, USA. PREP Undergraduate Research Awardee; Research Mentor. 2026-Present

Hydroclimatic variability on algae biomass

Zora, Lovrak. University of Nevada, Reno, USA. Director 2026-Present

Methods and Approaches for Freshwater Ecosystem Monitoring

Xander, Gaskill. University of Nevada, Reno, USA. Director 2026-Present

Freshwater Ecosystem Sampling in the Castle Lake Long-Term Monitoring Program

William, Chuter-Davies. University of Nevada, Reno. Advisor 2025-Present

Mapping wildfire impacts on freshwater ecosystems across North America

Sasha, Zeleni. University of Nevada, Reno, USA. Director 2025-Present

Methods and Approaches in Aquatic Ecology

Sydney, Adams. University of Nevada, Reno. Advisor 2025-2026

Sensor-Based Mapping to Address Wildfire Impacts on Freshwater Ecosystems

Campbelle, Redding. University of Nevada, Reno. Advisor 2025-2026

Wildfire impacts on human health

Justin Guzman. University of Nevada, Reno. Advisor 2025

Health consequences of wildfires

Eva Laiti, University of Nevada, Reno. Internship Advisor 2025

Greenhouse Gas Fluxes in Castle Lake Littoral Zones

Benjamín Abasto, Instituto Argentino de Oceanografía. Internship Advisor 2022-2023

Freshwater Ecosystem Sampling in Patagonia (Southern South America)

Parker Land, University of Nevada, Reno. Internship Advisor 2021

Techniques and Methods for Sampling in Freshwater Ecosystems

Nicholas Carter, University of Nevada, Reno. Internship Advisor 2021

Methods and Approaches for Freshwater Ecosystem Sampling

Jacquelynn Tran, University of Nevada, Reno, U.S. Internship Advisor 2020

Freshwater Ecosystem Sampling in the Castle Lake Long-Term Monitoring Program

Elliot Dominguez, University of Nevada, Reno, U.S. Internship Advisor 2020

*Freshwater Ecosystem Sampling in the Castle Lake Long-Term Monitoring Program***PROFESSIONAL SERVICE, MEMBERSHIP, & TRAINING****Associate Editors:**

Fire Ecology

Reviewer:

Global Change Biology (1), Global Biogeochemical Cycles (1), Biogeochemistry (1), JGR Biogeoscience (1), Limnology & oceanography (1), Environmental modelling and software (1), Hydrobiologia (1), Wetlands Ecology and Management(1), Journal of South American Earth Sciences (1), Limnology & oceanography methods (1), Freshwater science (1), Hydrological processes (1), Frontiers in marine science (1), Aquatic Ecology (1), Remote sensing (4).

Professional memberships:

International Society of Limnology, Association for the Sciences of Limnology and Oceanography, Global Lake Ecosystem Observatory Network, International Association of Wildland Fire.

Professional Service

Association for the Sciences of Limnology and Oceanography Early Career Member	2026-present
American Geophysical Union Diversity and Inclusion Committee Member	2019-2021
American Geophysical Union Diversity and Inclusion Task Force Member	2017-2018
Global Lake Ecosystem Observatory Network Collaborative Climate Committee Member	2014-2016
Chair of the Global Lake Ecosystem Observatory Network Graduate Student Association	2014-2016
Global Lake Ecosystem Observatory Network Conference Organization Committee member	2013-2014- 2015-2016- 2020-2021

Conference Sessions Convened

“FIRE-NET: Wildfire Airborne Particles and their Influence on Lake Ecosystems”. 2026. Conveners: **Scordo F.**, Chandra S., Brahney J., Mallia D.

“Wildfires and Aquatic Systems: Implications for Hydrology, Biogeochemistry, and Ecosystem Resilience”. 2026 ASLO-SIL Aquatic Sciences Meeting. Conveners: **Scordo F.**, Chandra S., Smits A., Farrugia M.J., Sadro S.

“Fire and Water: Towards an Understanding of Wildfire Impacts on Aquatic Ecosystems”. 2024 ASLO Aquatic Sciences Meeting. Conveners: Chandra S., **Scordo F.**, Corman J., Smits A., Brahney J., Sadro S.

Training

Collaborative institutional training initiative	2026
KnowBe4 Security Awareness Training. University of Nevada, Reno.	2025
Best Practices in Sponsored Project Management. University of Nevada, Reno.	2025
Mentoring Mentors workshop series. University of Nevada, Reno	2025
Preventing Harassment & Discrimination. University of Nevada, Reno	2025
Physical Science Responsible Conduct of Research. University of Nevada, Reno	2025
Laboratory Safety Hands-On Part 1 and 2. University of Nevada, Reno	2025
Intensive Academic Writing. Universidad Nacional del Sur.	2018

OUTREACH ACTIVITIES

Selected Outreach Activities

Presented to the Washoe Tribe Members about Wildfire impacts on aquatic ecosystems	2026
Presented to the Incline Village community (Nevada) about Wildfire smoke and its impacts to Lake Tahoe	2025
Presented to the Summit Lake Paiute Tribe Council about Hydroclimate variability affects habitat-specific productivity in Summit Lake	2025
Representative of the Biology Department at the UNR Day at the Legislature	2025
Collaborator in the Institute for Research on Biodiversity and Environment (Argentina) Open Program for the General Public.	2024
Created and delivered the bathymetric map of Laguna Blanca to National Park Laguna Blanca (Argentina)	2024
Presented research on climatic and human impacts on Patagonian lakes to the Epuén community (Chubut, Argentina).	2023
Presented research and activities of the Castle Lake Research Station to the Mount Shasta community (California).	2020
Presented research findings on the Senguer River Basin to the Alto Río Senguer community (Chubut, Argentina).	2017-2018
Presented research on climatic and anthropogenic effects on Colhué Huapi Lake to the Sarmiento City community (Chubut, Argentina).	2015-2016- 2017- 2018

Produced cartographic materials for educational use across primary, secondary, and university levels (Universidad Nacional del Sur, Argentina)	2016-2022
Assisted in promoting undergraduate programs at the Universidad Nacional del Sur, Argentina)	2017-2018
